SUMMARY

I turn ambiguous mandates into operating systems that move. AI enablement and factory strategy for Tesla Energy Manufacturing; prior Waymo Strategy & Ops, Apple iPhone India launch, Tesla 4680 special projects, and Amazon fulfillment ops.

SELECTED RESULTS

- \$260M annualized cost-down; \$156M incremental annual profit from a \$23M / 50+ initiative portfolio
- 10k+ Energy Manufacturing employees on AI enablement
- Apple India revenue \$2B->\$10B; units 4.3M->16.9M; exports 6 to 40+ countries
- Megapack production scale 3.2x

EXPERIENCE

Tesla - Manager, AI & Factory Strategy | Aug 2023 - Present

- Sequence a \$23M / 50+ initiative portfolio: \$260M annualized cost-down, \$156M incremental annual profit; Megapack scale 3.2x.
- Mitigated \$550M in projected tariff exposure by redesigning build plans and establishing FTZ / bonded-warehouse / product-changeover infrastructure.
- Lead AI enablement across Tesla Energy Manufacturing (10,000 employees): as-is to to-be to ship to hand-off to a sustaining team.
- Stand up an FDE team for custom AI buildouts (20+ tools, 1,000+ active users, ~\$1.6M productivity).
- Own strategy on what we build, where we build it, and when we launch, plus regulatory and cost mitigation.

Waymo - Strategy & Operations Manager | Oct 2022 - May 2023

- Translate org priorities into an executable operating system across hardware, software, fleet, product, and legal.
- Build annual planning, OKRs, resource plans, business reviews, and decision milestones so bottlenecks surface without ad-hoc reporting.

Apple - Strategic Operations Program Manager | Jun 2021 - Jun 2022

- Drive the zero-to-one operating system for iPhone manufacturing in India under exacting quality, regulatory, and timing requirements.
- Ship the ramp: revenue \$2B->\$10B, units 4.3M->16.9M, exports expanded from 6 to 40+ countries.

Tesla - Program Manager, Special Projects | Jun 2018 - Jun 2021

- Advance Project Roadrunner from early battery-cell pilot toward a production-ready platform.
- Install stage gates, readiness reviews, supplier coordination, and cross-functional launch ownership across engineering, production, and supply chain.
- Sustained Model 3 / Model Y rates through demand surges and supply disruptions.
- Designed and launched a \$3.5M/month Warehouse on Wheels logistics platform protecting battery and drivetrain flow.

Amazon - Operations Area Manager | Mar 2017 - Apr 2018

- Led a team of 100+ associates in a high-volume fulfillment center.

SKILLS

AI enablement and adoption | Factory and operating strategy | Special projects / launch readiness | Capacity and cost economics | Decision systems and executive cadence | Zero-to-one manufacturing launches

EDUCATION

University at Buffalo - B.S. Business Administration, Finance (Cum Laude)
